"over 50 years of service"

QUALITY. EXPERTISE. SOLUTIONS.

Specializing in Heavy Industrial Machining, Repair and Fabrication

www.schurmanmfg.com

History

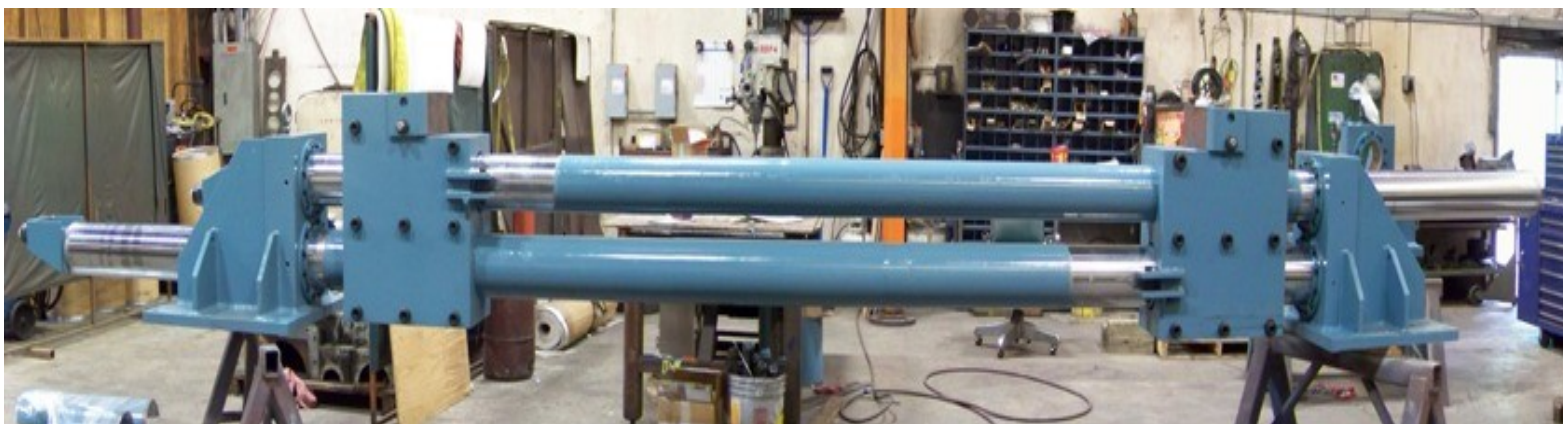

Since 1957, Paul Schurman Machine, Inc. has grown into a respected job shop by maintaining a meticulous commitment to excellence. Our shop is large enough to handle any of your heavy-duty industrial demands, and we're staffed by top-notch craftsmen who pride themselves on the quality of their work.

Service

PSM is capable of producing a broad range of parts, subassemblies and complete machines according to your specifications. From heavy equipment repair, prototype development, including: machining, fabricating, and welding, allow PSM to make your idea a reality.

Quality

We concentrate on working with each customer individually to build a quality product. We begin with your design and schedule the job according to your requirements. No detail is overlooked by our team. We pride ourselves in delivering good parts, when you want them, where you want them, and in as short amount of time possible.
